SERVICE UPDATES

Holds Hub Smart Lockers Launched

Using ARPA dollars allocated to the library by the City, the library added contactless pickup of holds, giving residents the ability to pick up their holds 24 hours a day, seven days a week - anytime it's convenient for them. In 2025, nearly 3,000 holds were picked up through our Holds Hub!

Library Board Eliminates Fines

The Library Board felt that eliminating fines is a step toward the greater good. They believe the value of access to library services, collections, and welcoming spaces far outweighs the impact of overdue fines on individuals and families. This change helps ensure that everyone can benefit equally from all the library has to offer.

The fine-free policy is expected to encourage more residents to use the library's educational, recreational, and enrichment resources, boosting library card sign-ups and increasing circulation.

The Library Board understands how vital it is to provide access to learning, information, and a safe, inclusive gathering place.

The library's overdue fines previously accounted for just 0.0006% of its annual budget. The cost of processing and enforcing fines often outweighed the amount collected. The Board reviewed other public library experiences and learned that going fine-free does not increase the number of lost or unreturned materials.

Patrons are still encouraged to return materials on time to keep items available for others. The library will continue to send reminders by text, email, or phone based on a patron's preferred contact method.

Starting June 1, 2025,
The Greenfield Public Library
is going

**FINE
FREE**

Say GOODBYE to overdue fines for books,
magazines, CDs, DVDs, and Tonies!

The Greenfield Public Library Board voted to eliminate overdue fines to increase access for all patrons.

*Overdue fines will still be charged for video games, Library of Things items, hotspots, laptops, Explore Passes, items belonging to other libraries in the Milwaukee County Federated Library System, and interlibrary loan items.

*Item replacement costs will still be charged for damaged items and items not returned within 28 days of their due date.

Fine-Free FAQ - Effective June 1, 2025

Why is the library going fine-free?

The Library Board wants Greenfield Residents to feel welcome and able to use the library without the barrier of overdue fines. Eliminating fines supports equity and improves access to library services and materials.

Won't this lead to people not returning books?

Public libraries that have gone fine-free report no significant increase in late returns. In fact, many see improved return rates and more patrons coming back after avoiding the library due to past fines.

How will the library make up for the lost revenue?

Overdue fines made up a very small portion of the Greenfield Public Library budget—0.0006%. The Board has planned for this transition and is offsetting the difference through budget adjustments, increased efficiencies, and potential grants or donations.

Are there items exempt from the fine-free status?

Yes. Due to the unique nature of the following collections, fines still apply when returned late:

- Explore Passes
- Laptops
- Library of Things
- Video Games
- Wireless Hotspots

What happens if someone never returns an item?

The Library will still charge replacement fees for lost or damaged materials. Reminders will be sent to encourage timely returns, and accounts may be blocked if items are not returned.

Can I still return overdue items?

Absolutely! We encourage you to return any overdue items—even if they've been out for a long time. There are no fines - there is no shame - just thanks.

Who benefits from this change?

All Greenfield Residents. Especially families, students, and low-income patrons who might avoid the library because of unpaid fines. This helps us fulfill our mission of free and equal access to all.

BUILDING UPDATES

A fresh coat of paint was applied to the lobby and the first and second floors. The selected colors were intended to complement reupholstered furnishings and bring calmness and warmth to a busy community hub. The paint colors were chosen with the help of a Library Board member with interior design experience. Approximately 60% of the project was funded with ARPA dollars allocated by the City to the library, with the remaining 40% funded through the library's operating budget

Using the same funding source, 84 pieces of furniture were reupholstered in an updated color palette of blues and greens. This project also provided the opportunity to rearrange furniture, placing pieces in areas where library patrons spend the most time reading, studying, and gathering. The couch shown in the photo to the right was moved from the community room to the southwest corner of the second floor.

The largest change was the addition of a fourth study room, created in response to the growing demand for small groups to meet and work together in a semi-private space. This project was completed by our DPW Department, and we are sincerely grateful for their time, talent, and expertise in bringing this new space to life. The room comfortably seats six people and is already enhancing how patrons use the library.

WHAT'S COMING IN 2026

Libby Expansion Coming in 2026

Throughout 2025, Library staff have been exploring ways to expand access to digital books and audiobooks while staying within our collection budget. After reviewing several options in the Library marketplace, we're excited to share that the Greenfield Public Library will join public libraries across Milwaukee County to launch and invest in a new Lucky Day digital collection, available through OverDrive and powered by the Libby app.

This collection will feature popular, high-demand titles that are available without holds or wait times for readers and listeners of all ages, with a special emphasis on audiobooks. The total countywide investment for this initiative is \$100,000. Based on a usage formula, Greenfield Public Library's share for 2026 is \$3,600. Each participating Library may contribute additional funds beyond the minimum share. When planning the 2026 budget, the Library Board earmarked a total of \$10,000 for digital content and agreed to contribute the full amount to help strengthen this shared collection.

Why Libby?

1. **Cost Sustainability** – OverDrive allows libraries to purchase copies as needed, offering predictable annual budgeting rather than open-ended costs.
2. **Familiar Platform** – Libby is already the most widely used and preferred app for digital borrowing among Milwaukee County residents, with more than one million items downloaded each year.
3. **Improved Access** – The Lucky Day collection will make popular titles available right away, helping to reduce frustration with long hold queues.
4. **Shared Benefit** – Because the collection is shared across all Milwaukee County public libraries, residents will enjoy equal access regardless of which Library they use—just like with physical materials today.

This change will take effect in early 2026. We wanted to share this news early, so residents are informed and ready for the exciting improvements ahead. While this expansion won't completely eliminate wait times in Libby, we're confident it will provide faster access, better meet residents' reading and listening needs, and deliver a stronger digital experience for everyone in our community.

SECTION 1:

Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District (“TID”) No. 10 (“District”) is a proposed Mixed-Use District comprising approximately 25.5 acres generally located on the northwest corner of 92nd Street and I-894. The District will be created to pay the costs of development incentives needed for The Signature (“Project”) to be developed by Cobalt (“Developer”). In addition to the incremental property value that will be created, the City expects the Project will result in 273 market-rate apartment units to help the City’s housing market and a small neighborhood commercial use. The District anticipates generating nearly \$62M in incremental value and generating approximately \$20.5M in incremental revenue by 2045.

AUTHORITY

The City is creating the District under the provisions of Wis. Stat. § 66.1105.

ESTIMATED TOTAL PROJECT COST EXPENDITURES

The City anticipates making total expenditures of approximately \$19.5 Million (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”). Project Costs include an estimated \$19.3M in Development Incentives and \$164,000 in City administration and planning expenses.

INCREMENTAL VALUATION

The City projects that new land and improvements value of approximately \$56.5M will result from the Project. Creation of this additional value will be made possible by the Project Costs made within the District. An additional \$5.1M in economic/inflationary increases (0.5%/year) in value are also anticipated to increase the total incremental value to be nearly \$62M by 2045. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

EXPECTED TERMINATION OF DISTRICT

Based on the Economic Feasibility Study located within Section 9 of this Plan; the City anticipates that the District will generate sufficient tax increment to pay all Project Costs within the full 20 years of its allowable 20 years. Closure is projected in 2047.

SUMMARY OF FINDINGS

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. **That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the City.** In reaching this determination, the City has considered:

A prior review of the Project’s sources and uses, and cash flow proforma (conducted in May 2025) calculated the Project’s projected average return on investment (at that time) over the 5-year investment period without TIF assistance would have been 2.34%, and present a negative internal rate of return (IRR). The Developer had requested that the City provide incentive payments on a pay as you go basis with an estimated present value of \$9,918,532 (projected future value payments of \$20,647,977). Provision of the requested assistance would have improved the Project’s average return on investment to 5.07% (7.20% in Year 5) and an IRR of 11.77%.

The Project has been reduced slightly with the current submission (January 2026) to reduce the projected average value of the units down from \$235,000/unit to \$207,000/unit. This has reduced the estimated present value of the incentives to \$9,158,732 (@ 6.75%) and the projected future cash value of payments of \$19,295,015.

Projects of this type typically need to provide a return on investment in the range of 8% to 12%, or an IRR in the range of 11-16%, to attract the necessary investment capital. Based on Ehlers review, provision of pay as you go incentives in the amount requested is necessary to provide an acceptable return on investment, and indicates that “but for” the incentives, the project would likely not proceed.

2. **The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements.** In making this determination, the City has considered the following information:

That the Developer is likely to purchase goods and services from local suppliers in construction of the Project, and induced effects of employee households spending locally for goods and services from retailers, restaurants and service companies.

3. **The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions.** As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of

projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the City finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

4. Not less than 50% (100%) by area of the real property within the District is suitable for mixed use development as defined by Wis. Stat. § 66.1105(2)(cm). Further, lands proposed for newly-platted residential development comprise no more than 35% (0%) of the real property area within the District. Residential development on the site will be accomplished by dividing the property via Certified Survey Map (CSM) land division, not platting. Costs related to newly-platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre (12.88 units per Net acre proposed) as defined in Wis. Stat. § 66.1105(2)(f)3.a.
5. Based on the foregoing finding, the District is designated as a mixed-use district.
6. The Project Costs relate directly to promoting mixed use development in the District, consistent with the purpose for which the District is created.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the City does not exceed 12% (7.08%) of the total equalized value of taxable property within the City.
9. The City estimates that approximately 3% (0.69 acres or 3.16%) of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
10. That there are no parcels to be included within the District that were annexed by the City within the preceding three-year period.

11. The Plan for the District is feasible and is in conformity with the Master Plan of the City.

Map Showing Existing Uses and Conditions

The District is currently vacant/undeveloped land zoned PUD 3 which is to be constructed, operated as a mixed-residential development. The zoning supports multi-family residential ranging from 10-15 units per acre.

SECTION 4:

Preliminary Parcel List and Analysis

The District is presently proposed to consist of two (2) parcels – Parcel # 607-9981-07 (the “Southern Parcel”) and Parcel# 607-9981-006 (the “Northern Parcel”). These are the Parcel numbers as of January 1, 2025. During the course of 2025, the Southern Parcel was split in two (2) via Certified Survey Map (CSM) and is expected to become Parcel #s 607-9000-000 and 607-9001-000. This change is expected to be finalized as of January 1, 2026.

The District will straddle both the Greenfield School District and the Whitnall School District. The Southern Parcel is in the Greenfield School District with a projected Equalized Value (EV) of \$3,181,900. The Northern Parcel is in the Whitnall School District and is projected to have an EV of \$1,255,700. Since the larger EV (as well as acreage) is in the Greenfield School District, the Greenfield School District will be the voting member on the Joint Review Board (JRB) for this District.

The Southern Parcel is also currently within TID 6. TID 10 will overlay the Southern Parcel thus impacting the remaining Boundary of TID 6. Accordingly, the incremental value of the Southern Parcel will be removed from 12% TID Value Test. Please see Section 5.

The planned development within the District, The Signature (Project), anticipates development of a multi-family residential housing development and any land division is to be done via CSM. Residential development within the District is not anticipated to be platted. As such, the residential development is not considered “Newly Platted Residential” and limited by Statute to no more than 35% of the District. New residential development (not “Newly Platted Residential”) will be 96.84% of the District.

Despite not needing to meet the Statutory requirements of Newly Platted Residential, the proposed development of 273 units on 21.20 Net Acres (Gross Acreage less wetlands) anticipates 12.88 units per acre. This well exceeds the 3 unit per acre requirement if it were Newly Platted Residential.

On the Following Pages are a Map depicting TID 10’s overlay of TID 6, a Map showing the revised/remaining Boundary of TID 6, and the Parcel Data Sheet and Analysis for TID 10.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the City expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the City. The value of those parcels located within Tax Incremental District No. 10 that will be overlapping those in Tax Increment District No. 6 are not included in the base value of the District as that value is reflected within the total of existing incremental value.

The equalized value of the increment of existing tax incremental districts within the City, plus the base value of the proposed District, totals \$347,256,900 (7.08%). This value is \$241,643,412 less than the maximum equalized value of \$588,900,312 that is permitted for the City.

SECTION 6:

Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating City ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the City expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the City may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the City from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the City to acquire property and make it suitable for development exceed the revenues or other consideration received from the sale or lease of that property, the net amount shall be considered "real property assembly costs" as

defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the City may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The City may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The City may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include, but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the City related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the City may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The City may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the City for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the City may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Water System Improvements

To allow development to occur, the City may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or

expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the City may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the City will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the City construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the City to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the City to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the City may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications,

including, but not limited to: telephone lines, cable lines and fiber optic cable. Costs incurred by the City to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the City may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the City may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include, but are not limited to: landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the City are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The City may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the City executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the City are eligible Project Costs.

The City anticipates entering into a Development Agreement in 2026 to provide a Pay-As-You-Go (PAYGO) development incentive through the issuance of a Municipal Revenue Obligation (MRO) with the Developer (Cobalt) for The Signature (Project). The MRO is anticipated to be 95% of the annual Net Available Increment (property tax incremental revenue less any City expenses and existing cumulative fund balance deficits). The MRO is not expected to earn any (0%) interest and have a full projected value of \$19,295,015.

Contribution to Community Development Authority (CDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the City may provide funds to its CDA to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA for this purpose are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the City, through its CDA may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA in the program manual. Any funds returned to the CDA from the repayment of loans made are not considered revenues to the District, and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the City may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the City's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs, and may include any project cost that would otherwise be eligible if undertaken within the District. The City intends to make the following project cost expenditures outside the District:

The City has not identified any Project Costs outside the District at this time, but reserves the right to amend the Project Plan to do so.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs.

Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The City may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by City employees relating to the implementation of the Plan.

The City anticipates \$163,917 in on-going administrative/planning costs throughout the life of the District.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

The City does not anticipate financing any (\$0) Project Costs (outside of the MRO for Development incentives which is not expected to earn interest (0%). The City reserves the right to finance and incur financing costs in the future.

SECTION 7:

Map Showing Proposed Improvements and Uses

The only proposed improvements at this time are for The Signature development (Project). The Signature anticipates the construction of 273 market rate, multi-family apartments. The apartments will be 1-bedroom, 1-bedroom + Den, 2-bedroom, and 3-bedroom. The average value of each unit is projected at \$207,000/unit.

The District is currently vacant, undeveloped land zoned PUD 3 which is to be constructed, operated as a mixed-residential development. The zoning supports multi-family residential ranging from 10-15 units per acre. The Signature proposes the construction of 273 units on 21.20 Net Acres (removing wetlands) for a density of 12.88 units per acre.

The Signature also anticipates the allocation of a small, neighborhood commercial use in the District's Southeast corner along 92nd Street. The exact type of commercial development has not yet been determined.

Total development is anticipated to generate nearly \$62M (\$61,701,983) in incremental value by 2045.

SECTION 8:

Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the City currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

SECTION 9:

Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the City plans to make are expected to create \$56,511,000 in new construction incremental value by 2028, with an additional \$5,190,983 in economic appreciation (0.5% annually) for a total incremental value of \$61,701,983 by 2045. Estimated valuations and timing for construction of the Project are included in **Table 1**.

The District and The Signature (Project) development is expected fall in both the Greenfield School District and the Whitnall School District. Assuming the City's current equalized TID Interim tax rate (2025/26) in each School District of \$18.42 per \$1,000 Equalized Value (EV) in the Greenfield School District and \$18.98 per \$1,000 EV in the Whitnall School District, with no further economic appreciation or depreciation in values or tax rates, the Project would generate \$20,684,535 in incremental tax revenue over the 20-year term of the District as shown in **Table 1** on the following page

The Signature Development anticipates the construction of 201 units within the Greenfield School District to add \$41,607,000 in incremental value in the District, and 72 units for \$14,904,000 in incremental value in the Whitnall School District.

Financing and Implementation

The City anticipates entering into a Development Agreement in 2026 to provide a Pay-As-You-Go (PAYGO) development incentive through the issuance of a Municipal Revenue Obligation (MRO) with the Developer (Cobalt) for The Signature (Project). The MRO is anticipated to be 95% of the annual Net Available Increment (property tax incremental revenue less any City expenses and existing cumulative fund balance deficits). The MRO is not expected to earn any (0%) interest and have a full projected value of \$19,295,015.

Table 3. provides a summary of the District's financing plan.

Based on the Project Cost expenditures as included within the cash flow exhibit **(Table 4)**, the District is projected to accumulate sufficient funds by the year **2047** (maximum 20-year term of the District) to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

SECTION 10:

Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

SECTION 11:

Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the City estimates that approximately 3.0% (3.16%) of the territory within the District will be devoted to a small, neighborhood commercial/retail business at the end of the District's maximum expenditure period.

SECTION 12:

Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and City Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the City's current zoning ordinances. Individual properties may require rezoning at the time of development. The District is currently zoned PUD 3 which supports multi-family residential development as called for in The Signature (Project).

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the City's Comprehensive Plan identifying the area as appropriate for Mixed Use development.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the City's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:

Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:

How Creation of the Tax Incremental District Promotes the Orderly Development of the City

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the City by creating opportunities for mixed use development, providing necessary public infrastructure (sanitary sewer) improvements and providing appropriate financial incentives for private development projects (The Signature). Through use of tax increment financing, the City can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment opportunities, increasing City housing stock by 273 multi-family units, and increased potential customers and patrons for City businesses.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

At this time, there are no improvements to be made within the District that will benefit property outside the District. Furthermore, there are no improvements planned to be made outside the District that will only partially benefit the District. The City reserves the right to include potential non-project costs in the future.

Licensed Training Provider Agreement

This **Licensed Training Provider Agreement** ("Agreement") is by and between The American National Red Cross ("Red Cross") and City of Greenfield (the "LTP") (each a "Party" and together the "Parties"), effective as of the last date of signature set forth below ("Effective Date"), for the purpose of licensing Red Cross training materials and curriculum to LTP in order to permit LTP to deliver instruction in the Red Cross training courses that are included within the product package(s) listed in Appendix B ("Courses").

1. LTP Responsibilities. LTP will:

- 1.1. Only permit an individual to teach a Course and submit Course Records (as defined below) under LTP's account in Red Cross's learning management system ("LMS") if that individual (i) has an active certification by Red Cross to teach the Course, and is otherwise in good standing as an instructor with Red Cross, when the Course is delivered, and (ii) has been authorized by LTP to teach Courses on LTP's behalf and enter records for completed Courses ("Course Records") on LTP's behalf in Red Cross's LMS before the Course is delivered. (Individuals who satisfy all of these conditions are hereinafter referred to as "Instructors").
- 1.2. Cause Instructors to teach Courses using only the most current Red Cross-approved instructional materials and such other copyrighted and proprietary educational content as Red Cross may provide from time to time, as the same may be amended, supplemented, or retired, to licensed training providers of Course instruction ("Course Materials"), in compliance with the most current Red Cross Training Provider Resource Guide ("Guide"), curricula, policies, and procedures, as the same may be amended, supplemented, or retired from time to time (collectively, the "Policies"), which Policies, as of the Effective Date, are available at <https://www.redcrosslearningcenter.org>.
- 1.3. Only sponsor, promote, and teach Courses and otherwise perform under this Agreement within the United States of America and its territories ("U.S."), as the Red Cross is only permitted to operate within the U.S. LTP will only permit its personnel and students in the U.S. to take online-only Courses ("e-learning Courses") or the online component of any Course.
- 1.4. Permit—or, upon Red Cross's request, obtain permission for—Red Cross to enter upon the premises at which Courses are taught so that Red Cross can observe LTP's Courses. Red Cross will cooperate with LTP in the scheduling of any such visit, but LTP may not notify its Instructors in advance of a scheduled visit.
- 1.5. Enter accurate and complete Course Records for each completed Course, along with all other requested information, into the Red Cross's LMS within ten (10) calendar days of the date that any scheduling instance of a Course (each a "Class") has been completed, and comply with all terms and conditions of the LMS during such use.
- 1.6. Only provide Red Cross issued Course completion certificates, using Red Cross-approved systems and forms, to students who have successfully completed a Course that has been administered by the required number of Instructors and otherwise in compliance with the Policies and this Agreement (it being understood that Red Cross may, in addition to other remedies, invalidate any Course completion certification not issued in conformity with this section).
- 1.7. Pay all fees payable under this Agreement when due, in accordance with section 5 below.
- 1.8. Be responsible for LTP's acts and omissions, and the acts and omissions of its Instructors, in connection with the delivery of Courses under this Agreement.

**American
Red Cross**

Training Services Licensed Training Provider Agreement

- 1.9. Maintain insurance (or, if LTP is a public entity, self-insure through a publicly recognized self-insurance program) to cover its performance under this Agreement, as Red Cross insurance does not extend to LTP or its Instructors. If aquatics courses are included among the Courses that LTP is authorized to deliver under Appendix B, maintain, at minimum, the types and limits of coverage set forth in Appendix C. Provide proof of insurance coverage to Red Cross upon its request.

2. License to Course Materials; CPS.

- 2.1. Red Cross is the owner of Course Materials. Subject to the terms and conditions of this Agreement, Red Cross hereby grants LTP a limited, non-exclusive, non-transferrable, and non-sublicensable license to publicly display and perform, Course Materials solely for the purpose of conducting Courses authorized under this Agreement. LTP may not revise, edit or create derivative works of Course Materials, in whole or in part.
- 2.2. Course Materials will be made available to LTP by digital download or other means as determined by Red Cross. LTP shall only obtain Course Materials for Courses that LTP is authorized to provide, and only through distribution means authorized by Red Cross.
- 2.3. Any certificates memorializing the successful completion of any Course may be issued only through the LMS. LTP has no right or authorization to design or create its own Course completion certificates.
- 2.4. LTP shall use reasonable efforts to protect the Course Materials from use not permitted under this Agreement. This Agreement does not constitute a transfer of ownership rights in the Course Materials. LTP shall not use facts and information from the Course Materials to create its own courses and course materials.
- 2.5. LTP may, from time to time, at its election, participate in Red Cross's Class Posting Service ("CPS"). Using the CPS, licensed training providers of Red Cross may advertise the availability of Courses to prospective students on Red Cross's on-line store, for additional fees. LTP agrees that its participation in the CPS will be governed by the terms and conditions contained in Red Cross's CPS User Guide, as the same may be amended from time to time. Red Cross may suspend or terminate the CPS with respect to all licensed training providers, including LTP, at any time or from time to time, in its sole discretion.

3. Use of Names and Marks.

- 3.1. Red Cross grants LTP the limited, non-exclusive, non-transferable and non-assignable license in the U.S. to use the name and logo of the Red Cross in the format set forth in the Guide (the "Authorized Mark") solely to promote that LTP is an authorized provider of the Courses, and subject to all restrictions herein this Agreement and the Policies.
- 3.2. Except as expressly provided in this Agreement, neither Party may use the other Party's name(s), logos trademarks or other intellectual property in marketing materials, press releases, presentations other than Courses, or otherwise without the advance written consent of the other Party, which consent may be granted or withheld in the other Party's sole discretion.
- 3.3. LTP shall not state or imply that LTP is employed by Red Cross, or that Red Cross sponsors or endorses LTP's business, products or services generally, or that any other training courses and services other than the Courses, are owned or endorsed by or otherwise associated or affiliated with Red Cross.
- 3.4. LTP shall not (i) create a compound mark with the Authorized Mark or (ii) use the Authorized Mark with any other design, slogan or trademark when such combination would tend to cause confusion as to source or affiliation.
- 3.5. LTP shall not in any instance, use a Greek red cross design in association with its business, goods or services.

4. Term and Termination.

- 4.1 This Agreement will be effective as of the Effective Date listed above and ends on the day before the thirty-six (36) month anniversary thereof, unless earlier terminated as provided below.
- 4.2 Red Cross may immediately terminate this Agreement if LTP breaches this Agreement. Red Cross may also terminate this Agreement if LTP breaches the terms of the CPS.
- 4.3 Either Party may terminate this Agreement with advance written notice to the other Party of at least thirty (30) days.
- 4.4 Notwithstanding expiration or any termination of this Agreement, the provisions of this Agreement will continue to govern with respect to any amounts payable to Red Cross for Courses completed prior to such expiration or termination. The Parties' obligations under sections 5.10 and 7 below will also survive expiration or any termination of this Agreement.

5. Fees and Invoicing.

- 5.1 For each Course enrollee, LTP will be charged the per-student license fee that is applicable to that Course. Courses are included within the product package(s) listed on Appendix B. Fees for Courses are set forth in the price list attached to Appendix B.
- 5.2 Unless LTP has been approved for invoicing, LTP will remit payment by credit card upon entry of Course Records into LMS. All fees for CPS are non-refundable and will be paid by credit card at the time LTP submits the Class for posting.
- 5.3 Red Cross may approve or deny LTP's request to be invoiced at Red Cross's sole discretion. Invoices will be sent via postal mail, may be issued up to four (4) times per month, and will include all transactions submitted in that billing period. Payment in full is due thirty (30) days from the date of each invoice. If LTP does not pay any amount by the payment due date, the Red Cross may, in its sole discretion (a) suspend or terminate the LTP's invoicing privileges and require credit card payment at the time LTP enters Courses into LMS; or (b) suspend or terminate the LTP's right to deliver Red Cross training and enter Course Records into LMS. If the Red Cross pursues collections action to recover past due amounts, the LTP will be responsible for all costs of collection including reasonable attorney's fees and collection agency fees and expenses.
- 5.4 If approved for invoicing, LTP may elect to have invoices delivered electronically to one (1) email address. LTP will provide Red Cross a single valid email address for electronic invoice delivery. LTP will receive a PDF copy of the invoice. LTP understands that LTP will not receive an invoice via postal mail after enrollment in electronic invoice delivery.
- 5.5 If LTP desires that invoices issued by Red Cross reflect LTP-issued purchase order numbers, then any such purchase order must be received by Red Cross at least ten (10) business days prior to the Class date; it being understood that under no circumstance will the absence of an LTP-issued purchase order number on any invoice excuse LTP's timely payment of that invoice.
- 5.6 To pay an invoice by credit card or to establish ACH payments, call 888-284-0607. To pay an invoice by check, include the remittance advice showing the LTP account name, customer number and invoice number, and send to:

American Red Cross - Training Services
25688 Network Place
Chicago, IL 60673-1256

- 5.7 Red Cross is not obligated to use LTP's vendor payment portal. If LTP desires that Red Cross use LTP's vendor payment portal, LTP must make such a request in writing. Red Cross may grant or deny the request in its sole discretion. Acceptance of such a request may only be made in writing by an

**American
Red Cross**

authorized representative of Red Cross. LTP must continue to pay invoices delivered by mail or email on a timely basis while such a request is pending. If Red Cross elects to use LTP's vendor payment portal, Red Cross will not be obligated to pay LTP or any third party any fee or expense for such use, regardless of any provision to the contrary in such portal's terms of use. LTP will, on demand, promptly reimburse Red Cross for any such fee or expense.

- 5.8 If LTP has account balance or invoice questions or concerns, immediately upon receipt of invoice, LTP may email billing@redcross.org or call 888-284-0607 to report and resolve the inquiry.
- 5.9 At least annually, Red Cross will review its national pricing, and may increase its pricing and fees. Red Cross will notify LTP of any such increase. Such notice (which Red Cross may send to LTP's contact for notices or contact for billing in Appendix A) will specify the date on which the increase will take effect under this Agreement. That date will be at least thirty (30) days after the date of such notice. As of that effective date, prices and fees under this Agreement will automatically be modified to reflect such increase without need for the Parties to take any other action, including (without limitation) the execution of any separate modification of, or amendment to this Agreement.
- 5.10 If the Red Cross determines that any Course offered by the LTP is not taught in accordance with Red Cross Policies, the LTP will be responsible for any costs associated with re-training Course participants. Red Cross, at its sole discretion, will determine the appropriate party to conduct re-training, which may include the LTP, or any Red Cross employee, volunteer, or third-party licensed training provider. LTP's obligation to pay for retraining under this section will survive the expiration or earlier termination of this Agreement with respect to any such retraining that takes place after the effective date of expiration or termination; and the provisions for invoicing and collection of past-due amounts set forth in this Section 5 will continue to govern with respect to any such obligation.

6. Notices. Each Party's contacts for notices and billing under this Agreement are listed on Appendix A.

7. Confidentiality. Except as required by applicable law or otherwise provided herein, LTP will maintain in confidence the pricing information set forth in Appendix B.

8. Intellectual Property.

- 8.1 Red Cross reserves all rights not expressly granted herein, in its registered and common law trademarks, service marks, names, emblems, logos and designs including without limitation, the Authorized Mark (the "Red Cross Marks"), and in the Course Materials in whole or in part (collectively the "Red Cross IP").
- 8.2 LTP acknowledges and agrees that the Red Cross IP is and shall remain the property of Red Cross, and that the license granted under this Agreement does not constitute a transfer to LTP of any ownership rights in the Red Cross IP. Further, the Parties agree and acknowledge that LTP's use of the Red Cross IP shall inure solely to the benefit of Red Cross.
- 8.3 LTP shall not commit, or cause any third party to commit, any act challenging, contesting or in any way impairing or attempting to impair Red Cross's right, title and interest in and to the Red Cross IP, including seeking registration of the Red Cross IP in whole or in part, or of any confusingly similar trademark or service mark anywhere in the world or incorporating LTP's business under the Red Cross Marks or any aspect of the Red Cross Marks or any name confusingly similar to the Red Cross Marks.
- 8.4 Upon the expiration or termination of this Agreement, all rights in the Red Cross IP herein granted to LTP immediately expire, and LTP will immediately cease all use of the Red Cross IP.

9. Miscellaneous.

**American
Red Cross**

Training Services Licensed Training Provider Agreement

- 9.1 **Severability.** In the event any provision of this Agreement is held invalid, illegal or unenforceable (any such provision, an “Invalid Provision”) in any jurisdiction, the Red Cross and the LTP shall promptly negotiate in good faith a lawful, valid and enforceable provision that is as similar in terms to such Invalid Provision as may be possible while giving effect to the future benefits and burdens accruing to the Parties hereunder. But, in no way will the Invalid Provision affect the validity or enforceability of any other portion or provision of this Agreement, regardless of the ability of the Parties to negotiate a new provision.
- 9.2 **Independent Contractors.** Each Party is an independent contractor with respect to the other, and nothing herein shall create any partnership, franchise, or joint venture between the Parties or an employer-employee or agency relationship. No agent, employee or servant of any Party shall be, or shall be deemed to be, the employee, agent or servant of the other Party, and each Party shall be solely and entirely responsible for its acts and the acts of its agents, employees and servants.
- 9.3 **Assignment.** LTP may not assign its rights under this Agreement, or delegate its obligations, in whole or in part, without the prior written consent of Red Cross. Any attempted assignment or delegation in violation of the foregoing will be null and void.
- 9.4 **Governing Law.** The Agreement is governed by the laws of the District of Columbia, without giving effect to its choice or conflict of law rules.
- 9.5 **Inapplicability of Procurement Terms.** This Agreement is not a contract for the purchase, sale, or use of personal property or for the rendering of personal or professional services by Red Cross. It is only a limited license in Red Cross IP. It is, therefore, not subject to policies, regulations, terms, conditions, or other requirements of LTP or any third party (including, but not limited to, the Federal Acquisition Regulation and any agency supplement thereto, and the U.S. Office of Management and Budget’s Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) that relate only to suppliers and vendors of goods or services. Under this Agreement, Red Cross will not carry out part of any Federal award received by LTP. Neither Red Cross, the host of its LMS, nor any other vendor to Red Cross in connection with this Agreement, will act as, nor may any of them be deemed, (i) a subcontractor to Red Cross or a first-tier or lower-tier subcontractor or sub-grantee to LTP under any prime contract or grant, or (ii) a first-tier or lower-tier processor of personal or other data for LTP or any third party.
- 9.6 **Data Processing.** Red Cross operates the LMS as a nationwide system of course certification. It does not operate the LMS as a service to, or as an agent or for the benefit of, LTP. Insofar as Red Cross collects, processes, transmits, stores, or otherwise manages data, including personal data, contained in Course Records, it will not be doing so for, or on behalf of, or as a service to, LTP. Red Cross retains all rights in and to the LMS and any Course Records uploaded by LTP into the LMS.
- 9.7 **Entire Agreement.** This Agreement constitutes the entire agreement between the Parties and supersedes all prior agreements, understandings and representations, both written and oral, between the Parties with respect to the subject matter of this Agreement.
- 9.8 **Amendments and Waivers.** Amendments, addenda and waivers to this Agreement will be effective only if made, in each case, by a non-preprinted document clearly understood by both Parties to be an amendment, addendum or waiver, as the case may be, and signed by both Parties. Any additional or different terms or conditions contained in any purchase order, confirmation, receipt, invoice, click-through agreement, or similar documents will not be binding on either Party, whether or not such terms and conditions would materially alter this Agreement (and even if the receiving Party has signed or otherwise acknowledged such purchase order, confirmation, receipt, invoice, click-through agreement or similar document), and each Party hereby rejects all such additional or different terms and conditions.

9.9 Mutual Representations. Each Party is relying upon the truth and accuracy of the following warranties, as made by the other Party, as a material inducement to entering into this Agreement:

- A. LTP warrants that any information it has tendered to Red Cross concerning its legal status, identities of its directors, officers, shareholders, or other principals and affiliates, financial condition, current and historical operations, insurance coverages, and all other information requested by Red Cross in connection with any inquiry into LTP's capabilities and qualifications as a prospective licensed training provider of Red Cross, was, on the date it was provided to Red Cross and on the Effective Date, true and accurate in all respects and free of any misleading omissions. LTP acknowledges that the foregoing warranty is a material inducement for the Red Cross to enter into this Agreement.
- B. Each Party represents to the other that it is duly organized or incorporated and validly existing under the laws of the state where it is organized or incorporated (or, if it is organized under federal law, that it is duly organized and validly existing under the laws of the United States), that it has the power and authority to enter into this Agreement and carry out its provisions, that it has taken all actions required for it to enter into the Agreement prior to the Effective Date, that its representative who has signed this Agreement below is duly authorized to execute and deliver this Agreement, and that this Agreement is legally binding upon and enforceable against it.

The Parties, acting through their duly authorized officers, have executed this Agreement, which shall come into force as of the Effective Date. Execution of this Agreement confirms LTP's receipt of the Training Provider Resource Guide, which may be updated from time to time.

WELCOME

Thank you for choosing to be a Training Provider for the American Red Cross. As a Red Cross Training Provider, your organization joins a long tradition of providing life-saving education and training throughout the United States dating back to 1909.

Purpose of the Resource Guide

This American Red Cross Training Provider Resource Guide provides the basic information needed to serve as an American Red Cross Training Provider. It also establishes policies relating to the delivery of training services to an independent contractor of the American Red Cross that are binding upon your organization and made part of your Licensed Training Provider Agreement with the American Red Cross.

Your organization and any instructor for your organization who is authorized to conduct Red Cross-approved courses — whether that is an employee, volunteer, or independent contractor — must strictly comply with this Guide and the Licensed Training Provider (LTP) Agreement. Your organization is responsible for the quality of training conducted by any instructor (as defined by the LTP Agreement). Your organization is also responsible for that individual's acts and omissions in connection with that training. If your organization, or any of your instructors, violates any requirement of this Guide, the Red Cross retains sole discretion to take whatever action toward your organization or its instructors that it deems appropriate. This may include but is not limited to temporary suspension of your right to conduct courses and upload course records into Red Cross learning management system; temporary suspension of instructors; termination of an instructor's right to deliver training, or termination of your organization's LTP Agreement.

Licensed Training Providers

Licensed Training Providers ("LTP" or "Training Provider") are companies, organizations, or unincorporated sole proprietors licensed by the Red Cross to independently use Red Cross training materials, in the instruction of Red Cross training courses, based on an LTP Agreement with Red Cross. A Training Provider may choose to:

- Teach Red Cross courses "internally" to individuals within the LTP's company or organization.
- Teach Red Cross courses "externally" to outside companies, organizations, or individuals, either exclusively or in addition to internal training.

ABOUT THE RED CROSS

Proceeds from Red Cross training support the lifesaving, charitable mission of the Red Cross — including disaster relief, blood collection and service to the Armed Forces.

Global Red Cross and Red Crescent Network

The Global Red Cross and Red Crescent Network is the largest humanitarian network in the world, with a presence in almost every country. The global network is unified and guided by seven Fundamental Principles.

Humanity

The Global Red Cross and Red Crescent Network, born of a desire to bring assistance without discrimination to the wounded on the battlefield, endeavors — in its international and national capacity — to prevent and alleviate human suffering wherever it may be found. Its purpose is to protect life and health and to ensure respect for the human being. It promotes mutual understanding, friendship, cooperation, and lasting peace amongst all peoples.

Impartiality

It makes no discrimination as to nationality, race, religious beliefs, class, or political opinions. It endeavors to relieve the suffering of individuals, being guided solely by their needs, and to give priority to the most urgent cases of distress.

Neutrality

In order to continue to enjoy the confidence of all, the Network may not take sides in hostilities or engage at any time in controversies of a political, racial, religious, or ideological nature.

Independence

The Network is independent. The National Societies, while auxiliaries in the humanitarian services of their governments and subject to the laws of their respective countries, must always maintain their autonomy so that they may be able at all times to act in accordance with the principles of the Movement.

Voluntary Service

It is a voluntary relief movement not prompted in any manner by desire for gain.

Unity

There can be only one Red Cross or Red Crescent Society in any one country. It must be open to all. It must carry on its humanitarian work throughout its territory.

Universality

The Global Red Cross and Red Crescent Network, in which all Societies have equal status and share equal responsibilities and duties in helping each other, is worldwide.

Mission

The American Red Cross prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors.

Vision Statement

The American Red Cross, through its network of volunteers, donors, and partners, is always there in times of need. We aspire to turn compassion into action so that:

- All people affected by disaster across the country and around the world receive care, shelter, and hope;
- Our communities are ready and prepared for disasters;
- Everyone in our country has access to safe, lifesaving blood and blood products;
- All members of our armed services and their families find support and comfort whenever needed;
- In an emergency, there are always trained individuals nearby, ready to use their Red Cross skills to save lives.

History

Clara Barton and a circle of her acquaintances founded the American Red Cross in Washington, D.C., on May 21, 1881. Barton first heard of the Swiss-inspired global Red Cross network while visiting Europe following the Civil War. Returning home, she campaigned for an American Red Cross and for ratification of the Geneva Convention protecting the war-injured, which the United States ratified in 1882.

The American Red Cross Today

Today, the supporters, volunteers and employees of the American Red Cross provide compassionate care in five critical areas:

- People affected by disasters in America.
- Support for members of the military, their families and veterans.
- Blood collection, processing and distribution.
- Health and safety education and training services.
- International relief and development. For more information, visit [redcross.org](https://www.redcross.org).

CONDUCTING RED CROSS TRAINING PROGRAMS

Maintaining Training Standards

Quality, consistency and standardized delivery of courses are the highest priorities of the American Red Cross. Red Cross courses are designed with standardized instructor outlines and lesson plans based on well-defined objectives to provide an optimal learning experience for a variety of participants. Many courses are designed to meet workplace certification and training requirements of different occupational settings, such as day-care workers, workplace response teams, lifeguards, swim instructors, healthcare providers and other professional responders. Both the course participants and organizations that hire individuals with Red Cross certifications expect and depend on quality training.

To meet the objectives of the courses and ensure standardized delivery, all instructors must strictly follow the course outlines and lesson plans included in the manual. Omitting content or skills is prohibited. Adaptation of the course outline is allowed when those sections are not built off of previously covered teaching skills or content. Examples where adaptation may be necessary include facility availability; specific instructor-to-participant ratios; equipment-to-participant ratios and the physical constraints or needs of a participant. Adaptation based on participant physical constraints or participant needs must follow the guidance in the *Inclusion Resource Guide* found on the Red Cross Learning Center. Adapting the training does not mean that instructors or instructor trainers can add to, delete or change content or the requirements for certification. Adding, deleting or changing content or the requirements for certification will result in corrective action.

Training Provider Course and Price List

The *Training Provider Course and Price List* contains the courses available to Training Providers. This list of Product Packages includes course combinations and bundles for Training Providers and their students. When executing the LTP Agreement, each Training Provider selects the Product Package(s) with the courses they want to make available to their instructors.

The Red Cross publishes an annual price list that may include modest price adjustments, rather than larger increases that would more significantly impact our Training Providers.

The annual *Training Provider Course and Price List* can be found in the Red Cross Learning Center under Resources>Administrative Information. Advance notice of price changes is provided in accordance with the terms of the LTP Agreement.

To add Red Cross training courses to your *LTP Agreement*, contact your sales representative.

Red Cross Training Programs

The Red Cross offers a broad range of training programs for both public and professional responders in the areas of First Aid, CPR/AED, swimming and water safety, and caregiving.

Reporting and Setting Up Classes

There are a few ways to set up and report classes. Log in and access through the red buttons that appear on the right side of the homepage. Instructors will see Course Record Entry and Request Blended Class. Administrators will additionally see Request Online Class and List Class on RCO.

Processing Instructor Led Classes

To process an Instructor-Led course that has already been completed and taught in-person, or to report the completion of a blended learning in-person session by a student who took an online session, use the option for [Course Record Entry](#).

Setting Up and Delivering Blended Learning Courses

There are several ways to deliver Blended Learning courses.

- [Request Online Class](#): Account administrators receive a registration link after they set up the online portion of a course. Only students with access to the link will be able to register for the online portion. Administrations must determine how many seats are needed for the online portion at the time of set up and it must be set up prior to conducting the in-person skill session. The Administrator is able to see student completion status. Students must complete the online portion prior to the in-person skill session. After completing the in-person skill session, instructors or administrators report via course record entry.
- [Request Blended Class](#): In this method, set a specific number of online access vouchers. The learners will need to complete the online training by a set date and attend a skills session that is set up in advance in the Red Cross Learning Center. The Instructor will be able to see student's online completion and progress. Once the class is complete, instructors and administrators must report student evaluations and close the class for students to receive certificates. If a student does not attend the skill session, they will need to be re-enrolled in a new class. Note: The student's progress will reset if they enroll in a new blended learning class.

Instructor & Instructor Trainer Updates, Recertification and Bridging

To view current instructor credentials, login to the Red Cross Learning Center and navigate to the “My Certification” tab in the top menu. To ensure all requirements for Recertification and Program Updates are met, navigate to the “Instructor Lifecycle” tab.

Instructor and IT bridging are expedited instructor and IT certification options that recognize an individual’s past certification and experience – either with the Red Cross or other national training organizations. Bridging allows for Red Cross certification without the need to attend a full instructor course. Most instructor and IT bridge courses are online and are free to eligible instructor or IT candidates.

Individuals who qualify for and complete an instructor or IT bridge will be granted the same instructor or IT certification as an individual who completed the full instructor course for the program. For additional information on bridging, including eligibility requirements, go to the “Instructor Lifecycle” tab and select “Bridging to Become an Instructor.”

INSTRUCTORS AND INSTRUCTOR TRAINERS

Instructor Certification

Certification occurs when a candidate successfully completes the instructor course or the instructor bridge course (if qualified) and is issued an instructor certification indicating that all requirements have been met on that date.

Before an instructor can teach and gain access to the Red Cross Learning Center—Instructor Portal, s/he must be affiliated with a Training Provider. Once certified, an instructor may provide training based upon the affiliation with the Training Provider and the Training Provider’s agreement with the Red Cross.

Instructor Courses

Red Cross instructor courses are in a blended learning format featuring an online introduction to the instructor course and an in-person portion. Instructor courses train individuals to be able to teach the course(s) within a specific program. The online portion typically includes a review of the Red Cross mission and services, an overview of the training program and materials, and an introduction to the tools and resources available to instructors. Candidates must complete the online introduction before attending the first session of the in-person instructor course.

The in-person portion is led by a certified Red Cross Instructor Trainer (IT) in the specific program area. It

includes a pre-course skills assessment, a review of the training program and materials, and features one or more practice-teaching assignments. This allows instructor candidates the opportunity to practice the sections they will be teaching.

Individuals who successfully complete the instructor course will be granted a Red Cross Instructor certification permitting them to teach the course or courses within the training program area for a specific period of time, which is usually two years. Newly certified instructors must affiliate with a Training Provider in order to teach Red Cross courses and submit training records.

The specific prerequisites and details for instructor courses vary by training program. For information on instructor courses, visit the Red Cross Learning Center at www.redcrosslearningcenter.org (no login required).

To register for an instructor course, interested candidates can search for a class by location on the Red Cross website <https://www.redcross.org/take-a-class> or call 1-800-RED-CROSS.

The Red Cross offers organizations “Full Service” instructor courses in which a Red Cross Instructor Trainer delivers the course on-site to multiple candidates. For information on scheduling an instructor course at your location, contact your sales representative.

Instructor Trainers

Instructor Trainers are individuals certified to teach Red Cross instructor courses which certify new instructors. Similar to instructor requirements, in order for an instructor trainer (IT) to be able to teach instructor courses, the IT must:

- Successfully complete an instructor trainer course in each of the courses you wish to teach.
- Be affiliated with a Training Provider’s RCLC account—whether as an employee, volunteer, or independent contractor—with an active LTP Agreement with the Red Cross
- Agree to the Instructor Trainer Agreement.

Instructor and Instructor Trainer (IT) Agreement

All Red Cross instructors and instructor trainers (IT) are required to review and agree to the [Instructor Agreement](#) as part of the certification and recertification process. It outlines an instructor’s obligations in the conduct of Red Cross courses. Certified instructors and ITs can access and view the *Instructor Agreement* on the Red Cross Learning Center.

Instructor Get Started Guide

The [Instructor Get Started Guide](#) is a resource for newly certified Red Cross instructors detailing the key initial steps that an instructor needs to complete to begin teaching Red Cross programs based on their new Instructor certification. The *Instructor Get Started Guide* can be found under Resources>Administrative Information in the Red Cross Learning Center.

Instructor Trainer Academies

Instructor Trainer Academies are training courses where candidates achieve their IT certification by participating and successfully completing a training program led by a Red Cross Instructor Trainer Educator. IT Academy curriculum is focused on providing the IT candidates with the knowledge, skills and familiarity with the Red Cross training program area so the IT can train new instructors in:

- Skill, expertise and mastery in the training program area,
- Facilitation and classroom management, and
- Understanding of Red Cross training tools, resources, and processes.

IT Academies are available for the First Aid/CPR/AED, Lifeguarding, and Water Safety programs. To attend an IT Academy, interested individuals must meet the qualifications and are required to complete an online application that includes providing details of the individual's teaching experience to-date and information on the IT candidates' interest in becoming an IT. Once the application is submitted, the IT Academy Administrative Coordinator reviews the application and contacts approved IT candidates with the steps to register for an IT academy.

The nationwide IT Academy schedule and the specific requirements and process to apply to attend are available in the Instructor Lifecycle section on the Red Cross Learning Center.

The Red Cross is always interested in working with organizations that would like to host an aquatic Instructor Trainer Academy at their facility. Program facility needs and requirements depend on the specific program area. Potential host facilities for aquatic Academies can complete the "Host IT Academy" application form located in the Instructor Trainer Candidates page under the Instructor Lifecycle section of the Red Cross Learning Center. <https://www.redcrosslearningcenter.org/s/instructor-trainer-candidates>

Maintaining Instructor and Instructor Trainer Certification

Requirements to maintain instructor and IT certification varies by training program. However, requirements typically include maintaining a basic-level certification in the program area, teaching a minimum number of class during the two-year certification period, completing an online recertification assessment or – depending on the program area – an in-person review course, and completing any instructor/IT update course as required by the Red Cross following a program update. Online Instructor/IT recertification assessments and updates are typically available at no cost during the update period.

A visual of the typical instructor or instructor trainer lifecycle is provided below.

For more information on the instructor lifecycle and maintaining certification requirements, instructors and ITs should review the program Instructor Bulletin, instructor's manual, and instructor trainer's guide and should review the contents of the Instructor Lifecycle section of the Red Cross Learning Center.

Quality Assurance

The Red Cross is the leader in quality health and safety training. It maintains this status by ensuring instructors and instructor trainers have the tools, resources and information to allow them to adhere to Red Cross training standards. The purpose of the Quality Assurance program is to maintain the integrity of Red Cross training programs and ensure compliance by Training Providers and instructors with all Red Cross training standards and requirements, including those set forth in the LTP Agreement, the Instructor Agreement, and this Guide.

Quality Assurance has the right to fully review and take remedial measures for any classes that do not meet Red Cross standards, whether as a response to a reported concern or as a proactive measure to ensure quality. Among other measures, Quality Assurance may permanently or temporarily suspend the right of instructors and Training Providers to conduct courses, and to upload course records into the Red Cross Learning Center. Quality Assurance may terminate an instructor's training certification when the Red Cross has lost confidence in that instructor's ability to deliver courses in conformity with our standards and requirements, including those set forth in the Instructor Agreement.

Training Providers and instructors have the duty to cooperate in any inquiry or investigation undertaken by Red Cross Quality Assurance. They have a duty to furnish accurate and timely information, and provide Quality Assurance timely access to facilities, personnel, and records that are relevant to training activities, all upon the Red Cross's request. Training Providers and instructors are forbidden to retaliate against any person who raises concerns with the Red Cross about the quality of training delivered by them.

Any Quality Assurance questions or concerns should be addressed to qualityassurance@redcross.org

Lifesaving Awards

The Red Cross Lifesaving Award program began in 1911. The Red Cross believes everyone that helps save a life should be recognized and therefore the current program includes several types of awards. The Certificate of Merit Award

The highest award given by the American Red Cross to an individual or team of individuals who save or sustain a life using skills and knowledge learned in a Red Cross Training Services course. This action exemplifies the highest degree of concern of one human being for another in distress. Certificate of Merit award is signed by the President of the United States, who is the Honorary Chairman of the American Red Cross, and the Chairman of the American Red Cross.

The Lifesaving Award (for Professional Responder and Healthcare Providers)

Given to an individual or team of individuals who saves or sustains a life outside of a medical setting and had an obligation to respond as part of employment (e.g., on-duty lifeguards; police, fire, and EMS personnel responding to a 9-1-1 call; professional health care workers). The certificate is signed by the Chairman of the American Red Cross and the President and CEO of the American Red Cross.

The Certificate of Extraordinary Personal Action

Approval of the American Red Cross Licensed Training Provider Agreement

SUMMARY:

Summary:

The Parks and Recreation Department has partnered with the American Red Cross in offering a wide variety of enrichment and safety classes including Learn to Swim, Babysitters Training, Lifeguard Training, Water Safety Instructor, Lifeguard Instructor courses as well as CPR, AED, and First Aid classes to benefit the City of Greenfield for 50+ years. We serve close to 2,000 children, teens and adults annually.

Enclosed please review the proposed American Red Cross Licensed Training Provider Agreement. This agreement defines the obligations of both parties and renews our existing agreement that was last approved by the Common Council in 2023.

This three-year agreement really does not represent any changes, other than fee amounts, since our last agreement. Program provider fees have been increasing typically by \$1 each year.

Recommendation:

I urge the Common Council to support this agreement allowing the Parks and Recreation Department to proceed with its relationship with the American Red Cross. This agreement was unanimously approved at the Parks and Recreation Board meeting on 1/22/28

Thank you,
Scott Jaquish, Director
City of Greenfield Department of Parks and Recreation

RELATING TO:

Discussion/decision regarding agreement with Spectrum Weather and Specialty Insurance Co for Special Event coverage.

Due to the increased cost of live music entertainment for AMP events and increased exposure due to a weather-related cancellation we are recommending we acquire special event weather related insurance policy for one of our Live at the AMP events. (8/21/26)

We first reached out the City's insurance carrier not expecting that we have that insurance but could get a supplemental policy. Unfortunately, they do not even provide them however he provided us with two contacts which also happened to be the same two as one of the promoters recommended.

They provided three-time options, we are recommending option 1
Within that option there is 4 levels we are recommending level 2.

If we receive rain, based on the third party doppler radar at the level stated and the event is cancelled, the policy will reimburse us the up-front cost of the band fee.

For example, for Hair Bangers Ball is \$9,000 so we would only be out the cost of the policy which is \$1,007.60.

For this year, of the three planned Live at the AMP events Hair Bangers Ball would be the only one we would be concerned about this situation as the other two we have worked with in the past and are currently more accommodating about rescheduling.

Thank you

WEATHER INSURANCE QUOTATION

THIS QUOTATION IS SUBJECT TO CHANGE AND FULL MARKET SUPPORT PRIOR TO BINDING COVERAGE

CARRIER: Avemco Insurance Company
NAMED INSURED: City of Greenfield
EVENT DATE(S): August 21, 2026
CITY, STATE: Greenfield, WI
QUOTE EXPIRATION DATE: February 26, 2026 11:59 pm

Peril Description: Rain - Incremental Accumulation at or above the described threshold

Rain insurance is based on a certain amount of rainfall over a certain number of hours. The more hours you insure the higher the rate so it's important to choose the most critical hours that will affect the success of the event. The earlier hours are usually more important than the later hours because that is when people will decide whether or not to attend.

There is no proof of loss required to pay a claim. Whatever dollar amount you insure, is the amount you get if the agreed rainfall threshold accumulates during the agreed hours. The event does NOT have to be cancelled.

The following descriptions are offered as a guide since many variables such as terrain, drainage and intensity can alter the descriptions.

1/4 (.25) Inch of Rain - A light rain for 2-3 hours, moderate rain for 30-60 minutes or heavy rain for 15 minutes. Many puddles on ground that do not disappear easily.

1/2 (.50) Inch of Rain - Moderate rain for 1-2 hours or heavy rain for 30-45 minutes. Deep standing water for long periods of time (a light rain never reaches this amount).

Claim Verification Options:

1) Closest National Weather Station - GENERAL MITCHELL INTERNATIONAL WBAN 14839 approximately 5 miles from event location. (No charge)

Please note that the same weather at the closest National Weather Station (NWS) may not occur at your event location. For example, you select the NWS as your claim verification location and 0.50" of rain as your desired threshold. On the day of your event, the NWS records 0.25" of rain and your event location records 0.50" of rain. In this case, a claim is NOT triggered since the recorded rainfall at the NWS (0.25") falls below the insured trigger amount (0.50"). Conversely, you select the NWS as your claim verification location and 0.25" of rain as your desired threshold. On the day of your event, the NWS records 0.50" of rain and your event location records 0.20" of rain. In this case, a claim IS triggered since the recorded rainfall at the NWS (0.50") exceeds the insured trigger amount (0.25").

2) Independent On-Site Weather Observer (IWO) is approximately \$100 per hour, plus travel expenses. This fee is the responsibility of the insured. The IWO is subject to Tokio Marine HCC - Specialty Group's approval, based on the following qualifications which can be found [here](#).) In the event an on-site independent weather observer is not approved or the report is not available to us, then the available recording from the Government Weather Bureau nearest the Location of the Insured Event (as stated above) will be used for claim verification.

3) **Athenium Analytics (\$50 per Insured Date)** - Athenium Analytics uses industry-changing and proprietary, hyper-local climate data to more accurately verify weather conditions at the exact location of the event.

NEW - Smartphone App / IMPROVED - hands-on claim verification: Using innovative technology, you will have the ability to download a smartphone app to verify if there was a claim and view and download a detailed hourly report of the weather data. Based on this report, if validated, a claim check will automatically be sent within 72 hours of claim notification by Athenium Analytics.

HCC Insurance Holdings, Inc. has contracted with Athenium Analytics exclusively to provide hyper-local climate data in the sports, hospitality, entertainment and leisure space in order to more accurately and economically verify weather conditions at the exact location of the event. For more information regarding this partnership, please [click here](#).

Athenium Analytics LLC is affiliated with the program administrator on this account, HCC Insurance Holdings, Inc. through a minority ownership interest in Athenium Analytics LLC by HCC Insurance Holdings, Inc.'s parent company.

In the event an on-site independent weather observer is not approved or the report is not available to us, then the available recording from the Government Weather Bureau nearest the Location of the Insured Event (as stated above) will be used for claim verification.

CLAIM VERIFICATION OPTIONS INFORMATION

Choosing the claim verification options is an important step when purchasing a weather insurance policy, as this will be the sole determination if a claim will be paid. This information is provided to assist you in making your choice. If you have additional questions, please ask your Spectrum representative. You must make this choice, and indicate on all documentation, prior to binding your insurance coverage.

In most cases, you will have three choices for your claim verification option. These choices are 1) the nearest, suitable, National Weather Service Station as indicated on your quote, 2) a qualified Independent Weather Observer to be on-site at your event, and 3) a third-party forensic meteorology company that uses Doppler radar and/or other local data sources to verify the weather conditions at the local of the insured event. You may choose one, and only one, of the claim verification options below. The choice for the claim verification must be designated on the insurance Application. Your claim verification options are as follows:

1. The nearest National Weather Service Station.

The National Weather Service (NWS) has the responsibility to report the weather conditions at designated locations across the United States. These weather observations are typically taken on an hourly basis, and those observations are then sent to the National Climatic Data Center (NCDC) where those observations undergo quality checks and are then archived. If you choose this option, it is these quality-checked and archived observations that will be used to determine the rainfall or other weather conditions that occurred during your coverage period. It is important to note that the quality-checked observations may not be available for several days or more after your coverage period.

The NWS station to be used is typically identified when your coverage is quoted. There is no additional fee associated with using this option for claims verification; however the insured does assume some risk with this choice. Because it is the observations from this location that will determine if a claim is to be paid, and because this location differs from the location of your event, it is entirely possible that it could rain excessively at your event location, and little to no rain occurs at the designated NWS station. If this occurs, you would NOT have a claim.

2. Independent On-Site Weather Observer

If an insured event is occurring a significant distance from the closest recording weather station, conflicting characteristics such as elevation or proximity to a body of water, or the Insured simply wants the recording to be location specific without risk of variation as described above, an independent weather observer (IWO) can be secured. The IWO must meet certain qualifications and must be approved by the underwriter.

While the qualifications vary between underwriters, an IWO typically must be either a meteorologist or an individual that has some training or experience in taking rainfall or other weather observations. The insured is responsible for declaring their intent to secure a qualified IWO. They must provide a completed and signed approval form which then must be approved by the underwriter prior to binding the insurance contract. It is the responsibility of the insured to locate a qualified IWO and any costs associated with the observer are the responsibility of the Insured. Typical fee is \$30 - \$40 per hour.

If approved by the underwriter, the IWO must arrive at the event location prior to the coverage hours, and set up their rain gauge and/or other equipment in a suitable location. They MUST remain with the rain gauge during the entire coverage period, recording their observations on an hourly basis. Any rainfall that occurs prior to the beginning of the coverage period, or after the end of the coverage period, is not included. Upon completion of the coverage, the IWO signs the observation form, which may or may not need to be notarized, and delivers to Spectrum. It is this form that will determine the result of any claim that may be submitted. More specific instructions are included at the time the policy is issued. An

on-site IWO is recommended. All documentation must be received and the underwriter approval must be granted prior to binding your insurance coverage.

3. Third Party Doppler Radar Monitoring Service

As an alternative to the nearest national weather service station (which may be too far away) or an on-site weather observer (which may be too expensive), a third party Doppler Monitoring Service is available as a pre-approved alternative for remotely measuring your insured peril. This service is provided by a third party company, the designation of which varies by carrier and/or data needs. The fee for the service varies by company and weather variable, but is typically \$50 - \$75 per date, regardless of the number of coverage hours.

These third-party companies provide location specific measurements by implementing the latest in weather technology, including but not limited to; weather products from the National Weather Service, proprietary modeling algorithms and software, and worldwide data services. The service provides forensic remote measurements by monitoring Doppler radar data showing the storm track and intensity for precipitation in various forms. Trained meteorologists will apply their expert interpretation to the data they obtain to provide a recording of the weather relevant to the Insured Weather Peril of your insurance policy. These companies can record rainfall, snowfall, temperatures, and other measurable weather occurrences.

In basic terms, the Doppler radar produces information on the rainfall rate, which is dependent on the raindrop diameter, the number of drops in the air, and the average drop fall speed. The rainfall amount is given by the average rainfall rate multiplied by duration over which the rate was measured. The company creates a grid of rainfall (or other weather) data, with boxes roughly 1km X 1km in size (slightly larger than ½ mi x ½ mi). Whichever grid that overlays the address of your event that you provided will be the grid used for determining the rainfall (or other weather) that occurs for your claim verification. It is important to note that these observations are taken remotely and that the monitoring service will not physically be at the event location. It is not a perfect solution and there may be a degree of inaccuracy, however as Doppler radar technology continues to improve, in conjunction with the algorithms used by the service provider, those inaccuracies continue to become less impactful on the approval of a claim.

If you have any questions about the claim verification options described above, please contact your Spectrum representative to discuss prior to signing and submitting this form.

By signature below, I am indicating that I have read the above information and that I fully understand the claim settlement options available to me. I fully understand and agree that the claim verification option that I have chosen will be the ONLY weather data report relied upon in the settlement of a claim under my insurance policy. I also agree to hold Spectrum Weather and Specialty Insurance, Inc., and its Officers and Board Members, harmless regarding any disagreements or litigation involving the data provided by your choice of claim verification option.

- B. The District is responsible for collecting and treating wastewater from locally owned sewerage systems in the District's service area.
- C. During wet weather, stormwater enters the sewerage system, increasing the volume of wastewater the District must collect and treat.

- E. Green Infrastructure (GI) such as constructed wetlands, rain gardens, green roofs, bioswales, and porous pavements, works to reduce the volume of stormwater in the sewerage system and the amount of pollutants discharged to surface waters.
- F. The District's Wisconsin Pollutant Discharge Elimination System (WPDES) permit includes a goal of 50 million gallons of GI capture capacity.
- G. The District wishes to expedite the amount of GI installed in its service area and this Agreement includes plans to install GI that supports the District's GI goals.

4. District Funding

The District will reimburse the Funding Recipient for the cost of the GI Project described in the attached project description (Project), up to \$423,977.33. The District will provide funding after the District receives the Baseline Report and the Conservation Easement.

The Funding Recipient will send the Baseline Report and the invoice to:

Andy Kaminski, Senior Project Manager
Milwaukee Metropolitan Sewerage District
260 West Seeboth Street

The Funding Recipient is solely responsible for compliance with all federal, state, and local laws and any required permits, certificates, or licenses for the Project.

12. Procurement

The Funding Recipient must select professional service providers according to the ordinances and policies of the Funding Recipient. The Funding Recipient must procure all non-professional services, such as construction, sewer inspection, and post-construction restoration, according to State of Wisconsin statutes and regulations and the ordinances and policies of the Funding Recipient. Whenever work valued over \$25,000.00 is procured without the use of a public sealed bidding process, the District may request, and the Funding Recipient must provide, an opinion from a licensed attorney representing the Funding Recipient explaining why the procurement complies with State of Wisconsin law and the ordinances of the Funding Recipient.
