3. Discussion/decision for clarification of Section 8.07 (3) of the Municipal Code regarding the prohibition of parking of trucks weighing greater than 12,000 pounds on "any street within the City".

Disc. Sec 8.07 (3) of Mun. Code re: Parking of trucks over 12,000 lbs. on city streets.
NEXT AGENDA

City Atty. Roger Pyzyk reviewed the background discussion on this item, and the possibility of taking a request to the County Board asking them to adopt an ordinance prohibiting the parking of vehicles with a gross weight of 12,000 lbs or more on S. 92nd Street and the roadway shoulder between the north and south City limits. After some further discussion Atty. Pyzyk said that he would check with the Greenfield Police Dept. to see if there have been any more issues recently reported to them in regards to this matter, and bring the information back to the next Legislative Committee meeting.

This item is to be placed on the NEXT AGENDA.

4. Discussion and decision regarding amendments to the Municipal Code for Chap. 15 (Building Code), Chap. 16 (Plumbing Code), Chap. 17 (Electrical Code), Chap. 21 (Zoning code), and Chap. 30 (Post-Construction Stormwater Management) (Erickson)

Charles Erickson, Community Development Manager explained that among this series of ordinance changes, some are due to housekeeping, some are adaptations to newer changes in the state or national code, and some are changes from MMSD reviewing Zoning Codes and Stormwater Management Codes for all the communities within the Menomonee River Watershed. The Building Codes are generally adaptations of enforcement issues in varying situations throughout the City. The Plumbing Code has a statutory change where there is no longer a reference to Comm, but instead it is SPS (Safety and Professional Services). There are also changes within the administrative code so we needed to make that reference. In the Electrical Code there is a major change as to who is able to actually get an electrical contractor license, and who issues that. The City of Greenfield used to issue an electrical contractor license, but that has been eliminated because State Statutes now require that a contractor be licensed by the state once, with no need of additional licensing from the community. The electrical inspector also made some changes as it relates to the national electric code and how that fits in with the State Statutes. The Zoning Code changes include the hiring of Birchline Planning LLC to review the code and enhance green infrastructure to take place within new development proposals that might be coming before the City. There are also some housekeeping items in the Zoning Code which are addressed here.

It was moved by Ald. Bailey, seconded by Ald. Saryan, to recommend adoption of ordinances amending Ch. 15, 16, 17, 21, and 30 of the Municipal Code. Motion carried unanimously.
